NOTICE

- If someone from the outside mails items that are not listed on the allowable items list, those items will be thrown away due to the inability for us to pay for return shipping.

- It is the responsibility of the inmate to ensure that he /she has space in their box, otherwise the inmate will have to discard the property by either taking it upon themselves to mail it out via us postal service, or throwing it away. Nothing will be taken by officers and placed in the property room due to limited space.

If an inmate has a large amount of property already in their cell and /or in the property room that they wish to mail out via the U.S. Postal service, then the inmate will have to write for permission from the jail administration to have someone on the outside mail in a pre stamped U.S. Priority Mail box.

Once this box is received by the mail officer, the inmate will have one day to place the items he/she wish to mail out.

It is the responsibility of the inmate to have the correct postage, because if it is not Lamar County Jail will not accept it back into the facility.
